The Company applies Corporate Accounting System issued under the Circular No. 99/2025/TT-BTC dated 27 October 2025 by the Ministry of Finance.

#### *Declaration of compliance with Accounting Standards and Accounting System*

The Company applies Vietnamese Accounting Standards and supplementary documents issued by the State. Financial Statements are prepared and presented in accordance with regulations of each standard and supplementary document as well as with current Accounting Standards and Accounting System.

### 2.3 . Basis for preparation of Separate Financial Statements

Separate Financial Statements are presented based on historical cost principle.

The Separate Financial Statements of the Company/Corporation are prepared based on summarization of the financial statements of the independent accounting entities and the head office of the Company/Corporation;

In the Company's Separate Financial Statements, internal transactions and internal balances related to assets, capital sources and internal receivables and payables have been excluded in their entirety.

The Users of this Separate Financial Statements should study the Separate Financial Statements combined with the Consolidated Financial Statements of the Company and its subsidiaries For the reporting period from January 1, 2026 to June 30, 2026 in order to gain enough information regarding the financial position, operating results and cash flows of the Company/Group.

### 2.4 . Accounting estimates

The preparation of Financial Statements in conformity with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and legal regulations relating to financial reporting requires the Board of Directors and Board of General Directors to make estimates and assumptions that affect the reported amounts of liabilities, assets and disclosures of contingent liabilities and assets at the date of the financial statements and the reported amounts of revenues and expenses during the fiscal year.

The estimates and assumptions that have a material impact in the Financial Statements include:

- Provision for bad debts;
- Provision for devaluation of inventory;
- Provision for payables;
- Estimated allocation of prepaid expenses;
- Estimated useful life of fixed assets;
- Classification and provision of financial investments;
- Estimate the percentage of completion of revenue;
- Estimated income tax.

Such estimates and assumptions are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are assessed by the Board of Directors and Board of General Directors to be reasonable under the circumstances.

## 2.5 . Financial Instruments

### *Initial recognition*

#### Financial assets

Financial assets of the Company include cash, cash equivalents, trade receivables, other receivables, lending loans, long-term and short-term investments. At initial recognition, financial assets are identified by purchasing price/issuing cost plus other expenses directly related to the purchase and issuance of those assets.

#### Financial liabilities

Financial liabilities of the Company include borrowings, trade payables, other payables and accrued expenses. At initial recognition, financial liabilities are determined by issuing price plus other expenses directly related to the issuance of those liabilities.

### *Subsequent measurement after initial recognition*

Financial assets and financial liabilities are not revalued according to fair value at the end of the year because the Circular No.210/2009/TT-BTC and prevailing statutory regulations require to present Financial statements and Notes to financial instruments but not provide any relevant instruction for assessment and recognition of fair value of financial assets and financial liabilities.

## 2.6 . Foreign currency transactions

Foreign currency transactions during the year are translated into Vietnam Dong using the actual rate at transaction date. /or applies the approximate exchange rate as real exchange rate, its disparity does not exceed +/- 1% compared to the average transfer exchange rate.

Actual exchange rate when revaluating monetary items denominated in foreign currencies at the reporting date of the Separate Financial Statements is determined under the following principles:

- For asset accounts, applying the bid rate of the commercial bank where the Company regularly conducts transaction;
- For cash deposited in bank, applying the bid rate of the commercial bank where the Company opens its foreign currency accounts;
- For liability accounts, applying the offer rate of the commercial bank where the Company regularly conducts transaction.

All exchange differences arising as a result of transactions or revaluation at the balance sheet date shall be recorded into the financial income or expense in the year.

## 2.7 . Cash and cash equivalents

Cash comprises cash on hand, demand deposits and monetary gold held as a reserve asset, exclusive of the gold classified as inventories and used as raw materials for the production of goods for sale.

Cash equivalents are short-term investments with the maturity of not over than 3 months from the date of investment, that are highly liquid and readily convertible into known amount of cash and that are subject to an insignificant risk of conversion into cash.

## 2.8 . Financial investments

*Trading securities* are initially recognized at original cost which includes purchase prices plus any directly attributable transaction costs such as brokerage, transaction fee, cost of information provision, taxes, bank's fees and charges. After initial recognition, trading securities are measured at original cost less provision for diminution in value of trading securities. Upon liquidation or transfer, cost of trading securities is determined using first in first out method or weighted average method.

*Investments held to maturity* comprise term deposits (including treasury bills and promissory notes), bonds, preference shares which the issuer is required to repurchase at a certain time in the future and loans, etc. held to maturity to earn profits periodically and other held to maturity investments.

*Investments in subsidiaries, joint ventures or associates* are initially recognized at original cost. After initial recognition, the value of these investments is measured at original cost less provision for devaluation of investments.

*Investments in other entities* comprise investments in equity instruments of other entities without having control, joint control, or significant influence on the investee. These investments are initially stated at original cost. After initial recognition, these investments are measured at original cost less provision for devaluation of investments.

For dividends received in the form of shares, only the number of shares received is recorded without any increase in the investment value and financial income.

Provision for devaluation of investments is made at the end of the accounting period as followings:

- Investments in trading securities: provision shall be made on the basis of the excess of original cost of the investments recorded in the accounting book over their market value at the provision date.
- Investments in subsidiaries, joint ventures or associates: provision for loss investments shall be made based on the Consolidated Financial Statements of subsidiaries, joint ventures or associates at the provision date.
- Long-term investments (other than trading securities) without significant influence on the investee: If the investment in listed shares or the fair value of the investment is determined reliably, provisions shall be made on the basis of the market value of the shares; if the fair value of the investment is not determined at the reporting date, provision shall be made based on the Financial Statements at the provision date of the investee.
- Investments held to maturity: provision for doubtful debts shall be made based on the recovery capacity in accordance with statutory regulations.

## 2.9 . Receivables

The receivables shall be recorded in details in terms of due date, entities receivable, types of currency and other factors according to requirements for management of the Company. The receivables shall be classified into short-term receivables or long-term receivables on the separate financial statements according to their remaining terms

The provision for doubtful debts is made for receivables that are overdue under an economic contract, a loan agreement, a contractual commitment or a promissory note and for receivables that are not due but difficult to be recovered. Accordingly, the provisions for overdue debts shall be based on the due date stipulated in the initial sale contract, exclusive of the debt rescheduling between contracting parties and the case where the debts are not due but the debtor is in bankruptcy, in dissolution, or missing and making fleeing or estimating the possible losses.

Inventories are initially recognized at original cost including purchase price, processing cost and other costs incurred in bringing the inventories to their location and condition at the time of initial recognition. After initial recognition, at the reporting date, inventories are stated at the lower of cost and net realizable value.

Net realizable value is estimated based on the selling price of the inventory minus the estimated costs for completing the products and the estimated costs needed for their consumption.

The cost of inventory is calculated using weighted average method.

Inventory is recorded by perpetual.

Method for valuation of work in process at the end of the accounting period:

- The value of work in progress is recorded for each construction project which is incomplete or revenue is unrecognised, corresponding to the amount of work in progress at the end of the year.
- The value of work in progress is recorded based on ... actual cost incurred for each unfinished produc.

Provision for devaluation of inventories made at the end of the period is based on the excess of original cost of inventory over their net realizable value.

### 2.1 . Fixed assets and Finance lease fixed assets

Fixed assets (tangible and intangible) are initially stated at the historical cost. During the using time, fixed assets (tangible and intangible) are recorded at cost, accumulated depreciation and carrying amount.

#### *Subsequent measurement after initial recognition*

If these costs aument future economic benefits obtained from the use of tangible fixed assets are extended to their initial standards conditions, these costs are capitalized as an incremental in their historical cost.

Other costs incurred after tangible fixed assets have been put into operation such as repair, maintenance and overhaul costs are recognized in the [Separate] Statement of Income in the year in which the costs are incurred.

Fixed assets are depreciated (amortised) using the straight-line method over their estimated useful lives as follows:

- |                                      |               |
|--------------------------------------|---------------|
| - Machine, equipment                 | 03 - 10 years |
| - Vehicles, Transportation equipment | 04 - 10 years |
| - Office equipment and furniture     | 03 - 10 years |

### 2.1. Construction in progress

## **2.1. Operating lease**

Operating leases is fixed asset leasing in which a significant portion of the risks and rewards of ownership are retained by the lessor. Payments made under operating leases are charged to Statement of Income on a straight-line basis over the period of the lease.

## **2.1. Deferred expenses**

The expenses incurred but related to operating results of several accounting periods are recorded as prepaid expenses and are allocated to the operating results in the following accounting periods.

The calculation and allocation of long-term prepaid expenses to operating expenses in each accounting period should be based on the nature of those expenses to select a reasonable allocation method and criteria.

Types of prepaid expenses include:

- Prepaid land expenses include prepaid land rental, including those related to leased land for which the Company has received certificate of land use right but not eligible for recording as intangible fixed asset in accordance with the Circular No. 45/2013/TT-BTC dated 25 April 2013 issued by the Ministry of Finance guiding regulation on management, use and depreciation of fixed assets and other expenses related to ensure for the use of leased land. These expenses are recognized in the separate statement of income on a straight-line basis according to the lease term of the contract.
- Tools and supplies include assets which are possessed by the Company in an ordinary course of business, with historical cost of each asset less than 30 million dongs and therefore not eligible for recording as fixed asset under current legal regulations. The historical cost of tools and supplies are allocated on the straight-line basis from 1 to 2 years.
- Goodwill arising from the equitization of state-owned enterprise is allocated gradually within no more than 3 years.
- Other prepaid expenses are recorded at their historical costs and allocated on the straight-line basis from 1 to 2 years.

## **2.1. Payables**

The payables shall be recorded in details in terms of due date, entities payable, types of currency and other factors according to the requirements for management of the Company. The payables shall be classified into short-term payables or long-term payables on the separate financial statements according to their remaining terms at the

## **2.1. Borrowings and finance lease liabilities**

The value of finance lease liabilities is recognized at the payable amount equal to the present value of minimum lease payments or the fair value of leased assets.

Borrowings and finance lease liabilities shall be recorded in details in terms of lending entities, loan agreement and terms of borrowings and finance lease liabilities. In case of borrowings or liabilities denominated in foreign currency, they shall be recorded in details in terms of types of currency.

**2.1'. Borrowing costs**

Borrowing costs are recognized as operating expenses in the year, in which it is incurred excepting those which are directly attributable to the construction or production of a qualifying asset are capitalized as part of the cost of that asset in accordance with VAS No. 16 "Borrowing costs". Besides, regarding borrowings serving the construction of fixed assets and investment properties, the interests shall be capitalized even when the construction duration is under 12 months.

**2.1'. Accrued expenses**

The recording of accrued expenses as operating expenses during the year shall be carried out under the matching principle between revenues and expenses during the year. Accrued expenses are settled with actual expenses incurred. The difference between accrued and actual expenses is reverted.

**2.1'. Provision for payables**

Provision for payables is only recognized when meeting all of the following conditions:

- The Company has a present debt obligation (legal obligation or joint obligation) as a result of past events;
- It is probable that the decrease in economic benefits may lead to the requirement for debt settlement;
- Debt obligation can be estimated reliably.

Value recorded as a provision for payables is the most reasonably estimated amount required to settle the current debt obligation at the end of the accounting year.

Only expenses related to the previously recorded provision for payables shall be offset by that provision for payables.

Provisions for payables are recorded as operating expenses of the accounting year. In case provision made for the previous accounting year but not used up exceeds the one made for the current accounting year, the difference is recorded as a decrease in operating expenses. The excess of the provision for payables relating to construction warranty is recorded as other income in the fiscal year.

**2.2'. Unearned revenues**

Unearned revenues include prepayments from customers for one or many accounting periods relating to asset leasing; interests received in advance when lending or buying debt instruments; or the difference in selling prices between deferred or instalment payment and prompt payment; revenues corresponding to the discounts offered to clients in the traditional customer loyalty, etc.

Unearned revenues are transferred to Revenue from sale of goods and rendering of services /or financial income with the amount corresponding to each accounting period.

## 2.2 . Owner's equity

Owner's equity is stated at actually contributed capital of owners.

Share premium is recorded at the difference between the par value with costs directly attributable to the issuance of shares and issue price of shares (including the case of re-issuing treasury shares) and can be a positive premium (if the issue price is higher than par value and costs directly attributable to the issuance of shares) or negative premium (if the issue price is lower than par value and costs directly attributable to the issuance of shares).

Option to convert bonds into shares (the capital component of the convertible bond) arises when the Company issues bonds that can be converted into a certain number of shares as stipulated in the issuance plan. The value of the capital component of the convertible bonds is determined at the difference between the total proceeds from the issuance of convertible bonds and the value of debt component of convertible bonds.

Other capital is the operating capital formed from the operating results or from gifts, presents, financing, assets revaluation (if these items are allowed to be recorded as a decrease or increase in the owner's equity).

Treasury shares bought before the effective date of the Securities Law 2019 (January 1, 2021) are shares issued by the Company and bought-back by itself, but these are not cancelled and may be re-issued subsequently in accordance with the Law on Securities. Treasury shares bought after January 1, 2021 will be cancelled and adjusted to reduce equity.

Differences arising from asset revaluation shall be recorded when receiving decision of State on asset revaluation; or when carrying out the equitization of State-owned enterprises and other cases in accordance with legal regulations.

Retained earnings are used to present the Company's operating results (profit, loss) after corporate income tax and profits appropriation or loss handling of the Company.

Dividends to be paid to shareholders are recognised as a payable in Statement of Financial position after the announcement of dividend payment from the Board of Directors and announcement of cut-off date for dividend payment of Vietnam Securities Depository and Clearing Corporation

## 2.2. . Revenue

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured regardless of when payment is being made. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates, and sales returns. The following specific recognition conditions must also be met when recognizing revenue:

### *Revenue from sale of goods*

## **2.2. . Revenue deductions**

Revenue deductions from sales of goods and rendering of services arising in the year include: Trade discounts, sales discounts and sales returns.

Trade discount, sales discount and sales return incurred in the same period of sale of goods and rendering of services are recorded as a decrease in revenue in the incurring period. In case goods and services are sold in the previous periods, but until the next period they are incurred as deductible items, the Company records the decrease in revenue under the following principles: If it is incurred prior to the issuance of Financial Statements, it is then recorded as a decrease in revenue on the Separate Financial Statements of the reporting period (the previous period); and if it is incurred after the issuance of Separate Financial Statements, it is recorded as a decrease in

## **2.2. . Cost of goods sold and services rendered**

Cost of goods sold and services rendered are cost of finished goods, merchandises, materials sold or services rendered during the year, and recorded on the basis of matching with revenue and on a prudence basis. Cases of loss of materials and goods exceeded the norm, labour cost and fixed manufacturing overheads not allocated to the value of inventory, provision for devaluation of inventory, abnormal expenses and losses of inventories after deducting the responsibility of collective and individuals concerned, etc. is recognized fully and promptly into cost of goods sold in the year even when products and goods have not been determined as sold.

## **2.2. . Financial expenses**

Items recorded into financial expenses comprise:

- Expenses or losses relating to financial investment activities;
- Borrowing costs;
- Losses from the disposal and transfer of short-term securities, transaction cost of selling securities;
- Provision for diminution in value of trading securities price; provision for losses from investment in other entities, losses from sale of foreign currency, exchange loss, etc.

The above items are recorded by the total amount arising in the year without offsetting against financial income.

## 2.2'. Corporate income tax

### a) Deferred income tax asset and Deferred income tax liability

Deferred income tax asset is recognized for deductible temporary differences and the carrying forward of unused tax losses and unused tax credits. Deferred income tax liability is recognized for taxable temporary differences.

Deferred income tax asset and Deferred income tax liability are determined based on prevailing corporate income tax rate /or corporate income tax rate which is estimated to change in the future (if the deferred income tax asset or deferred income tax liability are reversed when the new tax rates have been enacted), tax rates and tax laws enacted at the end of fiscal year.

Deferred tax assets are recognized only to the extent that it is probable that taxable profit in future will be available against which the deductible temporary difference can be utilised. Deferred tax assets are recorded as a decrease to the extent that it is not sure taxable economic benefits will be usable.

### b) Current corporate income tax expenses and deferred corporate income tax expenses

Current corporate income tax expenses are determined based on taxable income during the period and current corporate income tax rate.

Deferred corporate income tax expenses are determined based on deductible temporary differences, the taxable temporary differences and corporate income tax rate.

Current corporate income tax expenses and deferred corporate income tax expenses are not offset against each

### c) Current corporate income tax rate

The Company applies the corporate income tax rate of 20% for the operating activities which has taxable income.

## 2.2'. Earnings per share

Basic earnings per share are calculated by dividing net profit or loss after tax for the year attributable to ordinary shareholders of the Company (after adjusting for the bonus and welfare fund and allowance for Board of Management) by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share are calculated by dividing the net profit or loss after tax attributable to ordinary shareholders of the Company (after adjusting for the bonus and welfare fund, allowance for Board of Directors and interest on the convertible preference shares) by the weighted average number of ordinary shares that would be issued by conversion of all dilutive potential ordinary shares into ordinary shares.
